**Re: WC Docket No. 14-58
2015 ETC Annual Report of Lathrop Telephone Company
Study Area Code 421932**

Dear Ms. Dortch:

On behalf of Lathrop Telephone Company ("Company"), JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules.¹ Company seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information.² The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 of its Progress Report on its Five-Year Service Quality Improvement Plan as required by Section 54.313(a)(1).³

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall

**Re: WC Docket No. 14-58
2015 ETC Annual Report of Lathrop Telephone Company
Study Area Code 421932
Request for Confidentiality**

Dear Ms. Dortch:

John Staurulakis, Inc. ("JSI"), on behalf of its client Lathrop Telephone Company (the "Company") hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission's rules,¹ withholding from public inspection certain information contained in an attachment to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).²

1. The information for which the Company is seeking confidential treatment is an attachment to the Company's annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission's rules ("Report").³
2. Pursuant to Section 54.313(a)(1), Rate-of-Return Eligible Telecommunications Carriers ("ETCs") must file with the Commission a Progress Report on its Five-Year Service Quality Improvement Plan ("Progress Report") which is contained in the attachment to the 2015 Report.⁴
3. The information contained in attachment for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company's Progress Report provided at FCC Form 481 Line 112 attachment. Information of this nature is confidential commercial information routinely withheld from public inspection.

¹ 47 C.F.R. §§ 0.457, 0.459.

² 47 C.F.R. § 0.459(b)(1) through (9).

³ 47 C.F.R. §§ 54.313, 54.422.

⁴ 47 C.F.R. §§ 54.313(a)(1).

4. With respect to identifying the degree to which the subject attachment concerns a service that is subject to competition, the information is of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment contains competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its *March 5, 2013 Order*, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories."⁵ The Company's Progress Report updates this information as well as provides maps and detailed information as to whether or not network improvement objectives were achieved at the wire center level. Accordingly, because the Company is a rate-of-return carrier, it must file Progress Reports which contain proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

5. With respect to identifying possible exposure to competitive harm, the information contained in the Line 112 attachment is information that is not customarily released to the public. This information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.
6. With respect to steps the Company has taken to ensure against unauthorized disclosure of the information contained in the attachment, the Company is filing the attachment under seal. The Company uses the information contained in the

⁵ See *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Order, DA 13-332 (rel. Mar. 5, 2013) ("*March 5, 2013 Order*") at para 9 citing Section 54.202(a) (1) (ii).

Progress Report to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.

7. Any previous versions of this information are not publicly available.
8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
9. Not applicable.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Progress Report provided at FCC Form 481 Line 112 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall

**Five-Year Network Improvement Plan and
Progress Report**

ATTACHMENT REDACTED IN ENTIRETY

Lathrop Telephone Company demonstration of complying with applicable service quality standards and consumer protection rules for voice and broadband services:

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The Commission found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”³

Lathrop Telephone Company (“Company”) hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company complies with service quality and consumer protection provisions under state law. These provisions include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of The Missouri Public Service Commission which discloses rates, terms and conditions of service to customers; (2) compliance with state consumer protection provisions relating to Customer Services as identified in section 4 CSR 240-32.050 of the Missouri Code of State Regulations, compliance with provisions for Quality of Service as identified in section 4 CSR 240-32.070 of the Missouri Code of State Regulations, compliance with Service Objectives as identified in section 4 CSR 240-32.080 of the Missouri Code of State Regulations, compliance with customer Inquiry

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* at para. 28.

procedure as identified in 4 CSR 240-33.060 of the Missouri Code of State Regulations, compliance with Dispute standards as identified in 4 CSR 240-33.080 of the Missouri Code of State Regulations; (3) compliance with truth-in-billing requirements; and (4) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

The Company is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3. The Company furthermore will comply with all requirements set forth in the 2015 *Open Internet Order* when it becomes effective.

Lathrop Telephone Company's Ability to Function in Emergency Situations for voice and broadband services:

Lathrop Telephone Company ("Company") hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part § 54, Subpart C, 54.202(a)(2)1 and the Missouri Code of State Regulations. The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require. In addition, the Company has redundancy for connectivity purposes via additional routes and electronic equipment for both voice and broadband services.

Specifically, each central office building is supplied with standby generators and battery reserve that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. The Company has battery backup at all office locations and in its electronic equipment sites and has a maintenance program in place as described in section 4 CSR 240-32.060 of the Missouri Code of State Regulations.

The company's standby generators and battery back-up support both voice and broadband network equipment should an emergency situation occur.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

LOCAL EXCHANGE SERVICE TARIFF
LIFELINE SERVICE

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single-party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
 - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
 - b. Toll blocking is offered to Lifeline subscribers at no charge.
